Medicare Savings Program (MSP) & Extra Help Program

Medicare Savings Program (MSP)

This program is for people who have Medicare and helps with some of the out-of-pocket expenses. This program may pay for or lower Medicare Part A, Part B and/or Part D premiums, deductibles, and copayments (based on income). To qualify for any level of MSP, individuals must have or be eligible for Medicare Part A and have income and resources below a certain threshold. The income and resource requirements are different for each of the three Medicare Savings Programs/Levels and may change from year to year.

Eligibility for certain Medicare Savings Programs automatically qualifies you for the Extra Help program as well.

1. Qualified Medicare Beneficiary (QMB)- individuals found eligible for QMB are automatically qualified for the Extra Help (Medicare Part D prescription drug program) as well.
 - QMB pays for or lowers Medicare Part A, B, and D as well as premiums and Cost sharing expenses
2. Low Income Medicare Beneficiary (LMB)- like QMB, LMB qualifies a Medicare beneficiary for automatic eligibility for Extra Help.
 - LMB pays for or lowers Medicare Part B and D as well as Premiums.
3. Expanded Low Income Medicare Beneficiary (ELMB)- Like QMB and LMB, ELMB also qualifies a Medicare beneficiary for automatic eligibility for Extra Help.
 - ELMB pays for or lowers Medicare Part B and D as well as Premiums.

Checking this box alerts eligibility specialists to check for ability to enroll the individual in the Medicare Savings Plan.
