HCBS funding comparison

This shows the additional resources the State has put into these waivers since their incorporation into KanCare

HCBS wait list comparison

This shows both the PD and DD waitlists have been reduced significantly since these waivers were incorporated into KanCare

Waitlist maintenance and fidelity

- There continue to be anecdotal reports of people not receiving offers of service
- KDADS is trying to locate these individuals and encourage them contact us
- To date, we have not been contacted by anyone on the waitlist who has not received services
- This not only a KDADS issue, this is a state issue that needs to be solved
- Advocates and families should to let the agency know to help us identify eligible persons who are not receiving services so that KanCare will be able to provide them those services

Autism Services:

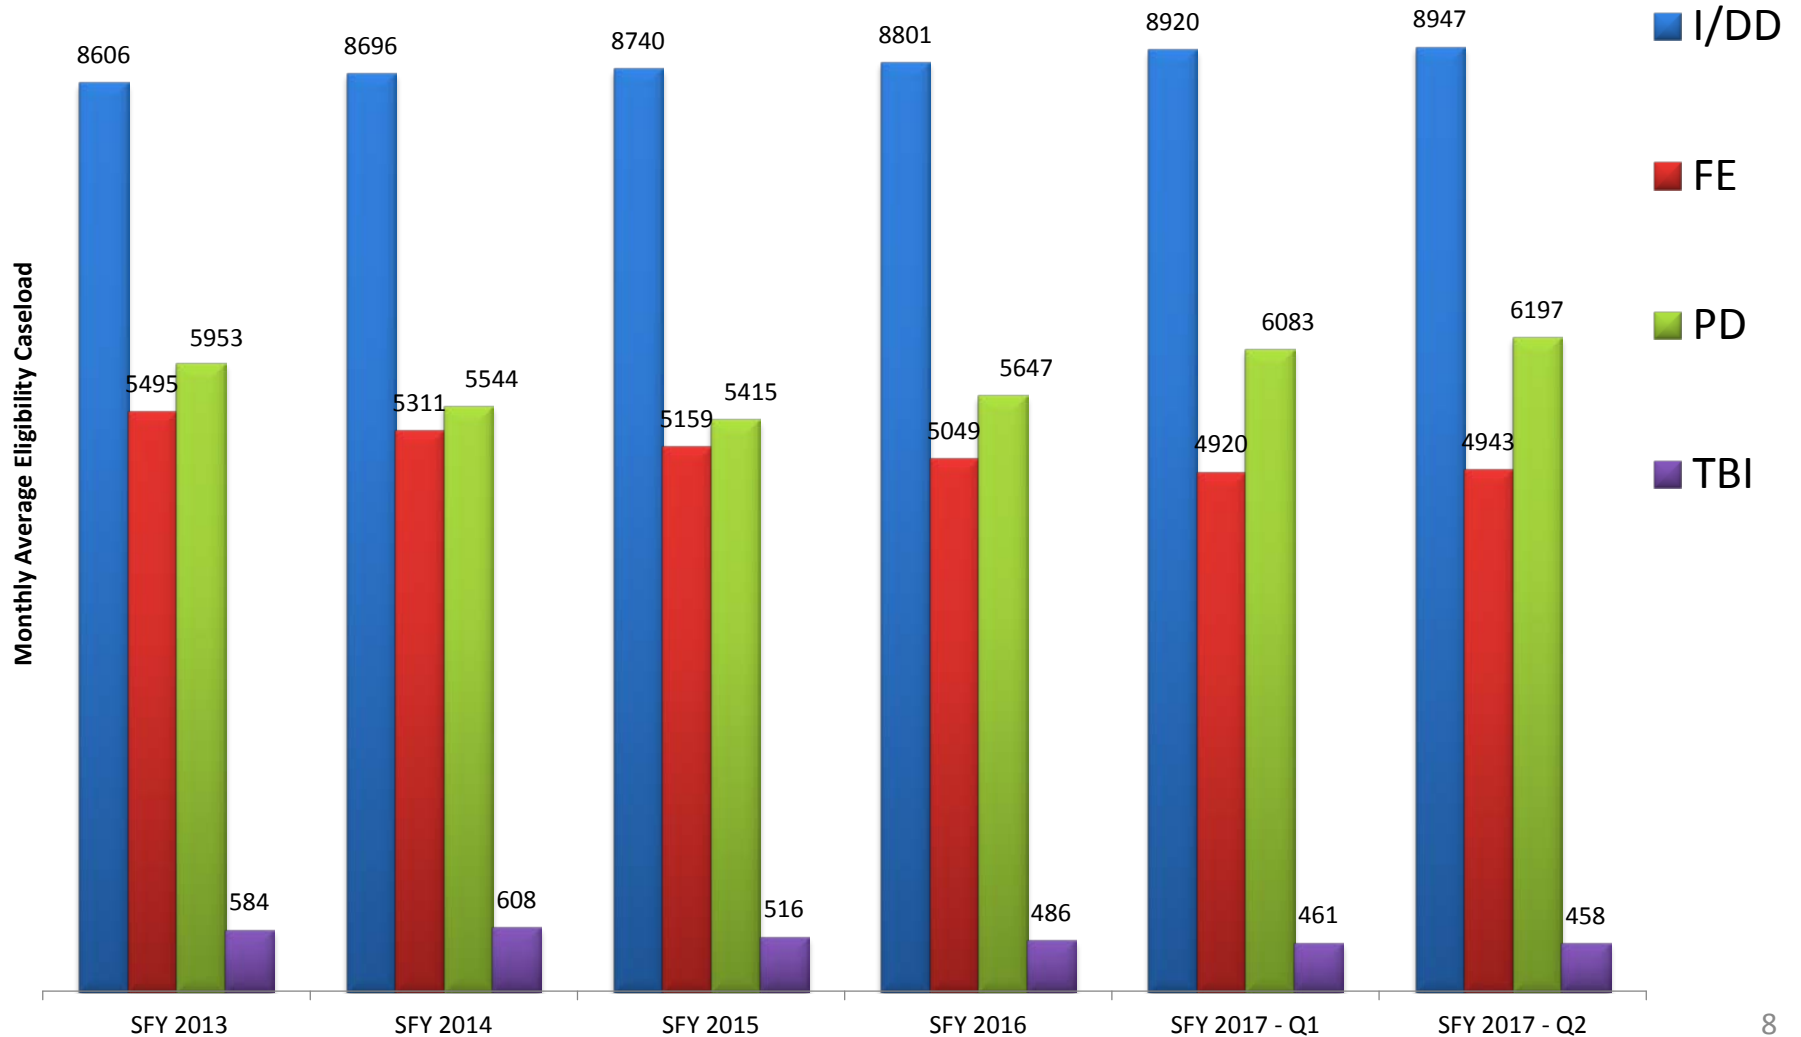

Waiver Renewal:

- Recently submitted autism waiver renewal application
 - 63 currently receive services; more children will get services due to transfer of some autism waiver services to the State Plan under the new waiver
 - **Key Changes:**
 - Three behavioral services were transferred from waiver to the State Plan
 - The goal is to work with families to provide the right plan of services and care
 - We expect a significant reduction in proposed waiver recipient list
 - But more children will receive early intervention Autism services
-

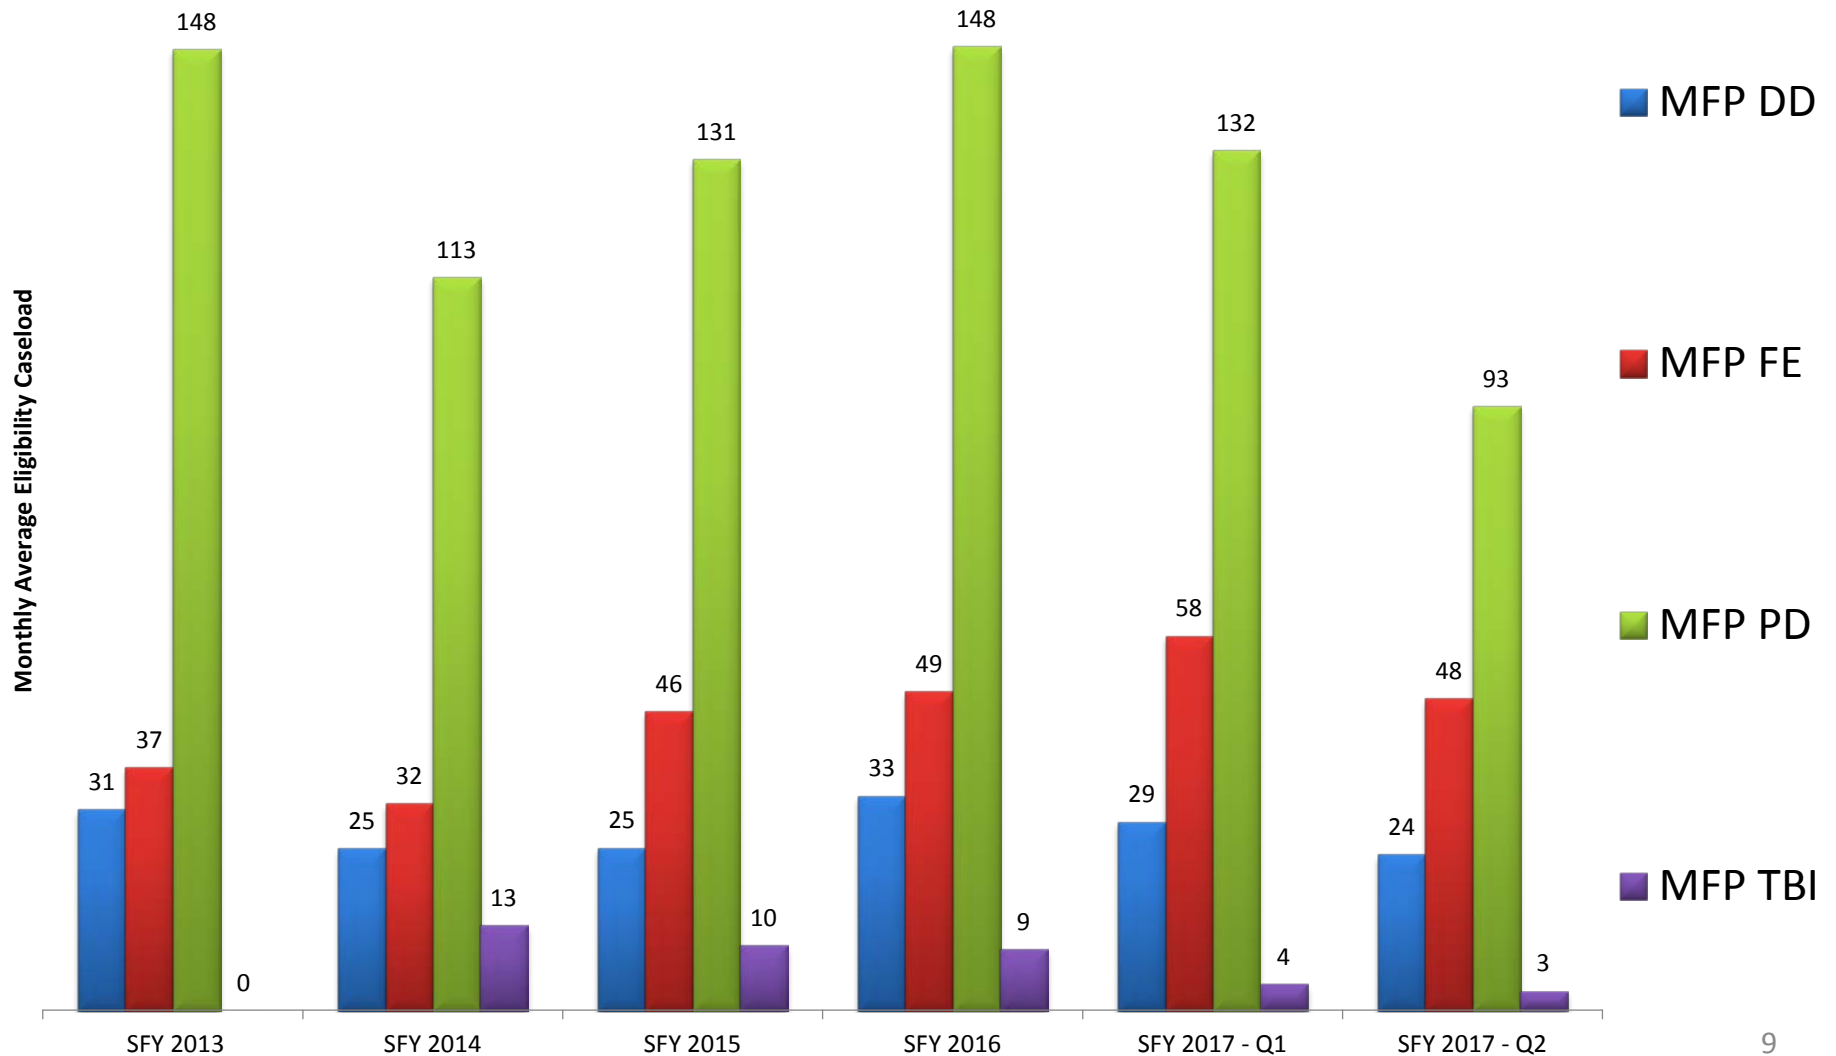

Serious Emotional Disturbance:

- **Waiver Renewal:**
- KDADS is working on the waiver renewal application for the SED waiver
- CMS has approved a 90-day extension of current waiver due to concerns about conflict of interest.
 - Currently the CMHCs provide all eligibility determinations, plans of care development, and provision of services.
 - CMS has said the CMHCs cannot continue to perform all these tasks because of an inherent conflict of interest in performing all three tasks
 - KDADS is working with CMS to determine specifically what CMS will require agency to do in order to address the conflict of interest ruling.
