Home and Community Based Services and
KanCare Oversight

Health Homes Update

- SMI Health Homes implemented July 1
- As of Nov. 1, 25,630 were enrolled in SMI Health Homes
 - I/DD members comprise 6.3 percent
 - 4,592 have opted out, 18 percent opt out rate
 - Projected opt out rate was 25 percent
- As of Nov. 4, there were 80 contracted Health Home Partners (HHPs)
 - While not all contract with an MCO, each MCO has at least 56 contracted HHPs

Home and Community Based Services and
KanCare Oversight

Psychotropic Drugs

- Pursuant to KSA 39-7,121b, there are no restrictions on prescribing of antipsychotic medications.
- Kansas Medicaid is not allowed to manage antipsychotic drugs like it does all other drug classes
- Kansas Medicaid must work through the State's Drug Utilization Review (DUR) Board before instituting prior authorization (PA) requirements on any drugs
- DUR process is transparent

AP Drug Recommendations

- Recommendations for the legislature's consideration
 - Individuals with chronic, persistent mental illness should continue to receive antipsychotics (APs) with no prior authorization (PA)
 - For other patients, safety edits should be permitted to ensure APs are being used appropriately
 - Ensure that APs are not being used as default treatment for dementia patients
 - Encourage gradual dose reductions when appropriate

AP Drug Recommendations

- Guidelines would be based on current practice standards, available data, and stakeholder input
 - Drug Utilization Review (DUR) board must approve the requirement of a PA
 - Transparent process, public meetings
 - Also require change to Medicaid Pharmacy regs
 - Approved by Joint Committee on Administrative Rules and Regulations

KEES

- KEES Pilot Environment implemented – July 2015
- FFM Account Transfer – 9038 Applications transferred from FFM during October
- Account Transfer changes to support Healthcare.gov 2015 Open Enrollment in test
- KEES Human Services – Phase 3 build 3 in system test; builds 4 and 5 scheduled
- KEES Phase 2.6 implementation planning and final readiness assessment
