Hi, I'm Bob Moser. I'm the Secretary of Health and Environment in Kansas. If you receive Medicaid services in our state, look for an important packet in the mail.

This packet has information about KanCare. KanCare will replace the old Medicaid system. The change starts in January.

KanCare is a great new program! It will ensure that you still get the medical care you need. It will also help the state keep Medicaid costs down.

You'll automatically be enrolled in one of three KanCare health plans. You'll have time to take a look at the extra services. Each plan is offering its own special benefits. You will be able to change to a different plan if you'd like. The packet you'll get in the mail will tell you how to do that.

All of your medical care will be provided through KanCare. The health plans will make sure you receive the services and screenings you need to stay healthy. The plans will

help you better manage your chronic conditions. The goal is to help you stay out of the hospital as much as possible.
