

WA435 NON-CITIZENSHIP USCIS DOCUMENT TYPE: I-94 IN UNEXPIRED FOREIGN PASSPORT

The United States Citizenship and Immigration Services (USCIS) Document Type of **I-94 in Unexpired Foreign Passport** does not display in the **USCIS** drop-down list on the **Non-Citizenship** page.

If an individual has provided this immigration document to verify their lawful presence and eligibility as a Qualified Non-Citizen (QNC) then the user should perform an online Systematic Alien Verification for Entitlements (SAVE) verification.

If the SAVE verifies and confirms the individual as an eligible QNC then the user should select the **USCIS Document Type** of **I-94**.

If the I-94 number is not present on the document then the user should enter the **Alien/USCIS Number** in the **I-94** field to save the record.

The **Date of Entry** should be obtained from the SAVE response.

All other mandatory fields needed to save the **Non-Citizenship** record should be completed.
