

WA436 SEVIS ID NUMBER FIELD NOT DISPLAYING

The Non-Citizenship page the Student and Exchange Visitor Information System (SEVIS) ID field does not display when the United States Citizenship and Immigration Services (USCIS) Document Type of DS2019 (Certificate of Eligibility for Exchange Visitor (J-1) Status) is selected.

This field is required to complete the Verify Lawful Presence (VLP) Interface. If an individual has provided a DS2019 to verify their Lawful Presence and eligibility as a Qualified Non-Citizen (QNC) the user should perform an online Systematic Alien Verification for Entitlements (SAVE) verification.

After SAVE has been completed the user should select the USCIS Document type of **DS2019** (Certificate of Eligibility for Exchange Visitor (J-1) Status) and complete all other mandatory fields needed to save the Non-Citizenship record.
