

Emergency Medical Checklist

A person is potentially eligible for an Emergency Medical Card during the KEES downtime if he or she cannot access critical medical care without a payment source.

1. Has the consumer filed an application with the agency or is eligible for reinstatement of medical coverage? Yes No
2. Has the consumer attempted to obtain necessary medical care but has been rejected due to lack of payment? Yes No

If yes to both of the above, then continue below to determine the type of service the individual cannot access:

Prescriptions/DME

- Is there a prescription or item that you cannot obtain without a payment source? Yes No
- a. Is this RX the result of an inpatient stay, outpatient stay, Emergency Room visit or necessary follow up from one of those visits? Yes No
 - b. Is this an anti-seizure drug or something similar? Yes No
 - c. Is this for oxygen, diabetic supplies or in-home dialysis treatment? Yes No
 - d. Is this for another life-sustaining drug or item that is not available through your medical provider via samples? Yes No
 - e. If yes, what is the drug/item and the purpose? _____

If Yes to one above – Emergency Medical Card is approved.

Specialist

- Is there a medical appointment that you will not be able to keep because the provider will not see you without payment? Yes No
- Is the medical appointment with a specialist (e.g. rheumatologist, ophthalmologist, nephrologist, oncologist, etc.)? Yes No

If Yes to one above – Emergency Medical Card is approved.

Scheduled Surgery or Pre-Operative Appointment

- Do you have scheduled surgery or pre-operative step that you cannot access without a payment source? Yes No
- What is the type of surgery or pre-operative appointment and when? _____

If within the dates of the conversion period, Emergency Medical Card is approved.

Pre-Natal Care, Dialysis, Chemotherapy or Other life-sustaining treatment

- Do you require critical treatment that you cannot access without a payment source? Yes No
- What is the type of treatment? _____

If reasonable, Emergency Medical Card is approved.

Other Issues

Please describe _____

If reasonable, staff at the Clearinghouse may approve or refer to KDHE Central Office for consultation with the clinical team.
