

Performance Improvement Projects

10-13-2020

The Centers for Medicare and Medicaid Services (CMS) requires Managed Care Organizations (MCO) to conduct performance improvement projects (PIPs) per 42 CFR 438330 and 4571240(b). A PIP is a pilot project designed to improve member health and quality of life. KanCare 2.0 requires each MCO to conduct at least 5 State approved PIPs. The Human Papillomavirus (HPV) PIP is done together by all three MCOs. The MCOs must also conduct an additional PIP on Kan Be Healthy (KBH), our childhood Early Periodic Screening Diagnostic and Testing (EPSDT) program, when the MCOs' overall rates drop below 85%.

The following table lists the current KanCare 2.0 PIPs and the activities the MCOs are using to improve the goals. Each PIP is reviewed every year for progress, and changes are made to the PIPs to improve care for KanCare members.

Performance Improvement Projects		
Aetna Better Health (ABH)	Sunflower Health Plan (SHP)	UnitedHealthcare (UHC)
<p>Topic: Reducing food insecurity ABH actions to reduce hunger:</p> <ul style="list-style-type: none"> • Calls to new members to ask about food needs • Webinars for members with diabetes • Donations to food banks • Pharmacists helping to identify members who need help • Provider offices to use claim information to identify members with food needs 	<p>Topic: Improving access to mental health services for children in foster care SHP actions to help foster care children receive needed mental health care:</p> <ul style="list-style-type: none"> • Online self-help tool • More services for children waiting for a bed at a Psychiatric Residential Treatment Facility • Speeding up time to enter treatment • Train foster care agencies to offer Evidence-Based therapy for parents and children • Make it easy for providers to share member information 	<p>Topic: Provide housing resources for members who are homeless or at-risk of homelessness UHC actions to reduce or prevent homelessness:</p> <ul style="list-style-type: none"> • Temporary financial help to get and/or keep housing for qualified members • Support 10 temporary housing units • Homeless shelters to identify members who need help • Train UHC Care Management staff on how to help members with housing needs • Provider offices to use claim information to identify members with housing needs
