Contracted OneCare Kansas Partners

The term "OneCare Kansas" refers to a new Medicaid option to provide coordination of physical and behavioral health care with long term services and supports for people with chronic conditions. OneCare Kansas expands upon medical home models to include links to community and social supports. OneCare Kansas focuses on the whole person and all his or her needs to manage his or her conditions and be as healthy as possible. All the caregivers involved in a OneCare Kansas member's health communicate with one another so that all of a patient's needs are met.

OneCare Kansas is intended for people with certain chronic conditions. They can be members who also receive Medicaid.

Provider Application Purpose and Process

Purpose:

To aid KDHE in evaluating the readiness of interested providers to deliver OCK services.

Process:

- Application is reviewed by State Team.
- If approved, it is then forwarded to the MCOs you designate for potential contracting.

State approval does not guarantee MCOs will award a contract or that members will be assigned.

Getting prepared to apply

Prior to completing the application, gather:

- Data on demographics, service utilization and other characteristics of the current population served
- Information on current clinical, operational, and cultural practices and processes
- Staff résumés, job descriptions and qualifications
- Information on your organization's endorsement of the Kansas Tobacco Guidelines for Behavioral Health Care

Tips for Completing the Provider Application

- Gather a team to share the work of completing the questions and to discuss a final consensus on responses
- If a description is requested, be brief but thorough
- Refer to Appendices for service definitions and professional requirements
